2+2 program

UAM College + Bridgeport University

Start in Nicaragua
Finish in USA ✈️

Why study at the University of Bridgeport?

- Located just one hour from New York City, providing access to one of the world's leading business and financial centers.
- Strong industry connections with leading companies and financial institutions across the United States.
- Faculty with real-world industry experience, combining academic excellence with practical expertise.
- State-of-the-art facilities featuring modern classrooms, specialized laboratories, and innovative learning environments.
- Internship and career development opportunities that prepare you for success in a competitive global workforce.
- A diverse international community, where students from around the world learn, collaborate, and grow together.

Why choose the 2+2 program?

- Dual degrees. Upon successful completion of the program, you will earn two independent bachelor's degrees
- Seamless academic transition. The curriculum has been carefully designed to facilitate the transfer of academic credits between both institutions
- Expanded career opportunities. A binational education enhances your professional profile, preparing you for career opportunities
- Personalized guidance every step of the way. Our team provides guidance and support throughout the transition process

Undergraduate Programs at Bridgeport University

- Accounting
- Business Administration
- Finance
- International Business
- Marketing
- Data Analytics
- Sports Management

UAM College Majors

Strategic Marketing

Find a unique approach to understanding customers and leveraging integrated strategic marketing plans in online and offline environments. Learn how to evaluate marketplace potential and risk, price products to create and capture values, and sustain value over time.

Global Finance

Finance professionals manage assets to create and grow wealth for investors and companies. The Finance career leverages financial analysis as the basis for managerial decision-making in order to maximize a firm's value, relative to the risk-return relationship and to investment management.

Global Management

Learn to define, plan, organize, and direct the operations of a business enterprise anywhere in the world by developing expertise in a variety of fields including business management, human resources management, international business and operations management.

International Development

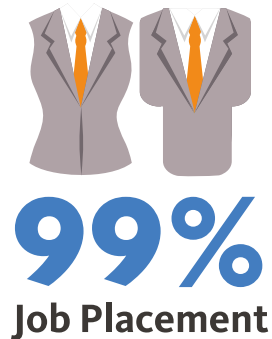

Develop analytical and communication skills while you gain knowledge from disciplines such as economics, politics, sociology and demography to understand what's happening in today's world.

International Development graduates understand processes of social and economic change to reduce poverty and improve life.

100%
Students complete
an internship prior to
graduation.
